**Quality workmanship.
Clear communication.
Responsible delivery.
Long-term value.**

COMPANY OVERVIEW

Who we are

We provide integrated construction services that help clients move from concept and site preparation to completed, functional and durable structures.

MAJOR OBJECT

To carry on the business of construction, civil works, building solutions, property development, walling, precast wall manufacturing and installation, prefabricated cottages and structures, renovation, maintenance, and related building services; and to manufacture, purchase, supply, distribute, import, export, and deal in building materials, construction equipment, and allied products; whether as principals, contractors, developers, suppliers, agents, or otherwise.

Our approach

Proper planning, clear costing, accountable supervision and respect for the client's property, time and investment.

BUILT FOR VALUE

Solutions aligned to purpose, lifecycle and budget.

BUILT WITH CARE

Attention to detail, supervision and clear communication.

BUILT TO LAST

Durable materials and disciplined workmanship.

From planning to handover, every stage is coordinated around quality, time and client priorities.

OUR DIRECTION

Purpose, ambition and values

Our direction defines how we plan, build, serve and grow as a trusted construction partner.

OUR VISION

To become a trusted and respected Zimbabwean construction company recognised for durable workmanship, reliable delivery and practical building innovation.

OUR MISSION

To deliver safe, well-managed and value-driven construction solutions through skilled workmanship, quality materials, clear communication and accountable project execution.

OUR CORE VALUES

01

Quality

Strong, neat and lasting work.

02

Integrity

Honest communication and honoured commitments.

03

Safety

Responsible and controlled site practices.

04

Accountability

Ownership of workmanship and delivery.

05

Client Focus

Solutions built around real client requirements.

06

Innovation

Practical and efficient ways to improve outcomes.

CAPABILITIES

Integrated construction services

One company. Multiple building solutions. A coordinated approach from groundwork and structure to finishes, external works and material supply.

01

GENERAL BUILDING

Residential, commercial and institutional construction.

02

CIVIL & SITE WORKS

Ground preparation, concrete, drainage and infrastructure.

03

PROPERTY DEVELOPMENT

Support from site planning to construction and completion.

04

WALL CONSTRUCTION

Boundary, brick and decorative walling solutions.

05

PRECAST WALLS

Manufacture, supply and installation of precast systems.

06

PREFAB COTTAGES

Practical cottages, offices, classrooms and site structures.

07

RENOVATIONS

Alterations, extensions, repairs and maintenance.

08

PAVING WORKS

Driveways, walkways, courtyards and paving repairs.

09

POOLS & LANDSCAPING

Swimming pools, external works and property enhancement.

10

METAL & STEEL WORK

General fabrication and supporting construction metalwork.

11

BRICKS & MATERIALS

Bricks, blocks, pavers and allied building products.

12

PROJECT SUPPORT

Procurement, coordination, supervision and handover.

BUILT WITH PRIDE • DELIVERED WITH CARE • CREATED FOR LASTING VALUE

CORE SERVICE 01

Building construction & civil works

Practical building and civil works with an emphasis on structural strength, site coordination and a clean finished result.

BUILDING CAPABILITIES

- Residential homes and cottages
- Commercial and institutional buildings
- Extensions and additional rooms
- Foundations, slabs and structural masonry
- Roofing, plastering and finishes

CIVIL & SITE CAPABILITIES

- Site clearing and preparation
- Concrete and reinforced concrete works
- Drainage and storm-water management
- Retaining, access and external works
- Project coordination and handover support

From groundwork to completion, every stage is coordinated around quality, time and client priorities.

CORE SERVICE 02

Walling & boundary solutions

Secure, durable and visually appropriate boundary solutions for homes, businesses, institutions and development sites.

PRECAST

Fast, neat boundary wall systems.

BRICK

Traditional and decorative masonry.

FENCING

Open, secure architectural enclosures.

REPAIRS

Wall rehabilitation and extensions.

WHAT WE DELIVER

Precast wall manufacture and installation • Brick boundary walls • Decorative walling • Wall extensions • Repairs and rehabilitation • Site-specific heights and lengths

CORE SERVICE 03

Paving, driveways & external works

Well-executed external works improve access, drainage, appearance and the day-to-day usability of a property.

APPLICATIONS

- Residential driveways and parking areas
- Walkways, courtyards and garden paths
- Commercial forecourts and access routes
- Paving repairs, extensions and pattern upgrades

OUR FOCUS

Sub-base preparation, levels, edging, pattern alignment, compaction and a neat final finish.

PRECISION UNDERFOOT. QUALITY IN EVERY FINISH.

CORE SERVICE 04

Pools & property enhancements

From excavation and structural preparation to finishing and surrounding works, we help clients improve property value, functionality and appeal.

POOL CONSTRUCTION

Excavation, reinforcement, shell preparation, finishing and surrounding works.

RENOVATIONS

Room upgrades, alterations, repairs, extensions and property improvement works.

MAINTENANCE

Responsive corrective works that protect function, appearance and long-term value.

CORE SERVICE 05

Precast & prefabricated solutions

Efficient building systems can shorten delivery periods, improve consistency and provide practical solutions for accommodation, offices, education and site facilities.

PREFABRICATED STRUCTURES

- Cottages and compact homes
- Site offices and guard rooms
- Classrooms and community facilities
- Storage and supporting buildings

PRECAST SOLUTIONS

- Concrete posts and wall panels
- Manufacture, supply and installation
- Boundary wall extensions and repairs
- Project-specific wall lengths and heights

PRACTICAL SYSTEMS. CONTROLLED INSTALLATION. FASTER ACCESS TO USABLE SPACE.

CORE SERVICE 06

Bricks, blocks & building materials

Reliable material supply supports quality construction, better planning and efficient project execution.

FACE BRICKS

Durable brick options for structural and visible wall finishes.

BLOCKS

Solid and concrete block solutions for varied building applications.

PAVERS

Paving units for driveways, paths, courtyards and external works.

PROJECT SUPPLY

Sourcing and distribution of allied construction products and equipment.

SUPPORTING SERVICES

Renovations, landscaping & fabrication

Supporting services help complete, improve and maintain functional, attractive and durable properties.

PROPERTY ENHANCEMENT

- Renovations and alterations
- Maintenance and repairs
- Landscaping and outdoor improvement
- Pool surroundings and paving
- Property upgrades and extensions

METAL WORK

General construction metalwork, frames, gates and supporting fabricated elements.

STEEL FABRICATION

Project-related steel solutions produced or sourced to suit the required application.

LANDSCAPING

Ground shaping, garden preparation, edging and integration with external works.

MAINTENANCE

Responsive repairs and corrective work to protect property function and appearance.

PROJECT DELIVERY

A clear path from enquiry to handover

Our process creates clarity on scope, responsibilities, progress and quality at every stage.

01

Consultation

Understand the client's requirements, preferred timeline and budget direction.

02

Site Assessment

Review access, measurements, ground conditions, existing structures and constraints.

03

Scope & Proposal

Define the work, materials, responsibilities, cost and delivery programme.

04

Mobilisation

Confirm resources, procurement, site readiness, safety arrangements and work sequencing.

05

Execution & Control

Supervise workmanship, coordinate activities, communicate progress and address risks.

06

Inspection & Handover

Review completed work, close snags, clean the work area and hand over responsibly.

CLEAR SCOPE • VISIBLE PROGRESS • CONTROLLED WORK • PRACTICAL HANDOVER

PROJECT ASSURANCE

Quality, safety & responsible delivery

Successful construction is not only about completing work. It is about controlling how the work is planned, executed, checked and handed over.

01

QUALITY

Workmanship planning, suitable material selection, dimensional checks, supervision, snagging and a clean handover.

02

SAFETY

Site access control, responsible tool use, PPE awareness, housekeeping and early identification of construction risks.

03

SUSTAINABILITY

Efficient material use, responsible waste handling, reduced rework and durable, maintainable solutions.

OUR PROJECT COMMITMENTS

Clear Scope

Agree what is included before mobilisation.

Visible Progress

Maintain communication throughout delivery.

Controlled Work

Supervise workmanship and address defects.

Respect for Site

Protect property and maintain orderly work areas.

Practical Handover

Review work with the client and close snags.

Continuous Improvement

Learn from each project and strengthen delivery.

QUALITY IS PLANNED, SUPERVISED, CHECKED AND DELIVERED.

WHY PROEZHACKS

A practical choice for your next project

Construction capability, responsive coordination and an integrated service range designed to make delivery simpler for the client.

01 ONE COORDINATED PARTNER

Construction, walling, paving, precast, prefab, renovation and supply under one relationship.

02 PRACTICAL PROJECT THINKING

Solutions based on use, site realities, budget and long-term value.

03 CLEAR COMMUNICATION

Regular engagement to manage scope, progress, decisions and expectations.

04 QUALITY-MINDED WORKMANSHIP

Attention to structural integrity, neat finishing and correct installation.

05 FLEXIBLE DELIVERY

Support for new builds, phased works, repairs, extensions and property upgrades.

06 LOCAL RESPONSIVENESS

Harare-based coordination with the ability to discuss projects across Zimbabwe.

INDIVIDUALS • FAMILIES • BUSINESSES • INSTITUTIONS • DEVELOPERS

LET'S BUILD YOUR VISION TOGETHER.

Quality work. Strong results. Built to last.
